Fundamental CSS Properties

Below you will find explanations and examples of some essential CSS properties.

Table of Contents

- [1. Color and Background](#)
- [2. Typography](#)
- [3. Margins and Padding](#)
- [4. Borders](#)
- [5. Flexbox](#)

1. Color and Background

Defines text and background colors.

```
p {  
  color: red;  
  background-color: yellow;  
}
```

ABCDE

More information: [W3Schools — CSS Colors](#)

2. Typography

Controls font family, size, and style.

```
h1 {  
  font-family: Arial, sans-serif;  
  font-size: 24px;  
  font-weight: bold;  
}
```

ABCDE

More information: [W3Schools — CSS Typography](#)

3. Margins and Padding

Defines external and internal spacing of elements.

```
div {  
  margin: 20px;  
  padding: 10px;  
}
```

ABCDE

More information: [W3Schools — CSS Margins and Padding](#)

4. Borders

Allows you to define the borders of elements.

```
div {  
  border: 2px solid black;  
  border-radius: 10px;  
}
```

ABCDE

More information: [W3Schools — CSS Borders](#)

5. Flexbox

Flexible layout for organizing elements in rows or columns.

```
.container {  
  display: flex;  
  justify-content: center;  
  align-items: center;  
}
```
